DISPOSE OF YARD WASTE PROPERLY

Never sweep piles of leaves into storm drains or onto drainage grates. Storm drains clogged with leaves cannot carry off rainwater. During heavy rains, plugged-up drains can cause streets and roadways to flood.

Leaves and branches that wash down storm drains can dam small streams and clog fish spawning beds. Decomposing leaves also reduce the amount of oxygen available to fish and other aquatic organisms.

Leaves and branches should always be placed in yard debris containers or compostable bags for collection, or in a backyard composting bin.

HOLIDAY COLLECTION FOR GARBAGE, RECYCLING & YARD DEBRIS

Waste Management does not pick up on Thanksgiving, Christmas or New Year's Day. If Thursday, November 28th, is your regular collection day, your garbage, recycling and yard debris will be picked up on Friday, November 29th. Friday collections move to Saturday, November 30th.

For Christmas, if your collection day is Wednesday, December 25th, your garbage and recycling will be picked up on Thursday, December 26th. Thursday collection moves to Friday, and Friday to Saturday the 28th (there is no yard debris service Monday 12/23 - Friday 12/27).

For New Year's Day, if your collection day is Wednesday, January 1st, your garbage, recycling and yard debris will be picked up on Thursday, January 2nd. Thursday collection moves to Friday, and Friday to Saturday the 4th.

WEATHER DELAYS FOR GARBAGE AND RECYCLING

If snow or other weather conditions make it unsafe for Waste Management's trucks to collect your garbage, recycling or yard debris, your materials will be picked up on your regularly scheduled day in the following week. (Note: Yard debris will be picked up on your regular pick-up day the next week, even if it is not a scheduled yard debris pick-up week.)

You may put out double amounts of garbage, recycling and yard debris and you will not be charged extra for the double loads.
