Redmond Community Indicators Working to Achieve the Community's Vision

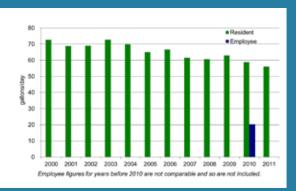

GOAL: CONSERVE

Resource Consumption. The amount of waste per single-family customer per week declined 3.5 pounds to 55.3 pounds. The recycling rate among singlefamily customers decreased slightly to 62.4%. The rolling three-year average water consumption fell about four percent to 271 million cubic feet, the

lowest figure in at least nine years. Streams. All six stream core sample sites have water quality index scores greater than 40, which means that they are of marginal concern or better. Two of eleven stream sites given BIBI scores ("bug index" scores) rated above 35, the minimum required to support native habitat.

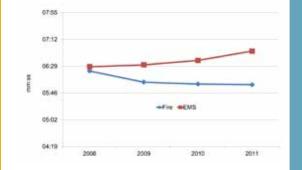

GOAL: CHARACTERS

Public Safety. Average fire response times were 5 min. 59 sec. in 2011 – about the same as in 2010; emergency medical response times slowed 15 seconds to 6 min. 53 sec. Cases of motor vehicle prowl (426), motor vehicle theft (37), identity theft (91), and violent crimes (42) decreased in 2011.

Education. The graduation rate at Redmond High School increased to 93%. Parks and Open Space. Redmond meets citywide park acreage and trail mile objectives, but some neighborhoods have a deficit of neighborhood parks, access to trails, or both.

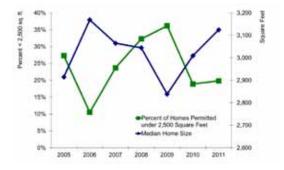

GOAL: CHOICES

Housing. The City issued permits for 126 new singlefamily homes during 2011. The median single-family home size increased to 3,125 square feet from 3,010 square feet. Thirty-three new affordable homes were created through Redmond's affordable housing regulations. Redmond did not allocate any of its

Housing Trust Fund dollars in 2011, but did so in early 2012. There were 0.70 residents per job in Redmond in 2010 (latest year available); achieving a better balance indicates that more people may live closer to work, and as a result, are able to reduce commuting needs and participate more in their community.

Single-Family Homes

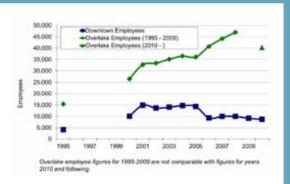

GOAL: CENTERS

activity commenced in 2011 owing to continued effects in the Downtown urban center, and 40,326 jobs in the Overlake urban center in 2010 (latest available). Employment in Redmond's urban centers accounts for

about 64% of total citywide employment. In 2011 the City invested \$15.5 million in the urban centers – about 38% of what was expected based on budget documents. Thirteen of sixteen urban centers initiatives planned for the 2011-12 budget cycle are complete.

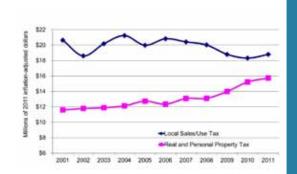

Downtown & Overlake Employment

GOAL: COMMERCE

Businesses. There are 5,533 businesses licensed to operate in Redmond: 958 are newly licensed while 1,445 have operated in Redmond for at least seven years. Population and Employment. Redmond's population reached 55,150 in 2011 and employment reached 76,876 (2010, latest available, not comparable to prior years). Income and Poverty. Redmond median household income rose to \$95,038; the mean wage rose to \$110,182 (inflation adjusted). Child poverty rose from 5% to 6.6% in the Lake Washington School District (2010), the highest level in over 15 years.

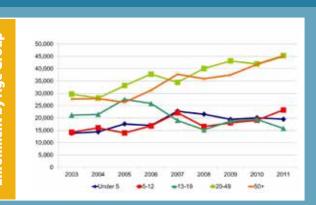

GOAL: CULTURE

Recreation and Arts. The largest increase in participation in City recreation program was among those ages 5 to 12, while overall participation increased to over 148,000. **Events**. About 24,000 people took part in Redmond Lights and Derby Days

participated in 2010. Over 44,000 participated in arts-related performances and exhibitions in 2011.

GOAL: COMMUNITY

Human Services. Every dollar the City of Redmond invests in human services is leveraged more than five times over by service providers. Over 90% of service providers meet contracted performance results. **Electronic Media**. There were about 2.71 million

visits to www.redmond.gov during 2011 (figure is not comparable to figures for prior years). **Annexation**. Redmond did not annex any additional land in 2011.
